Directories of Western Canada

**For the benefit of our Subscribers and the
General Public are to be found at**

Regina Public Library

This Publication is the Product of a Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

FURTHER POINTS OF EATON SERVICE

THE assurance that EATON goods are always new goods—goods hurried to the EATON stores and mail order houses from the market places of the world.

KNOWING EATON prices are cash prices—and being cash prices are figured to the advantage of the shopper because cash business cuts the cost of merchandising to essential costs only.

THE pleasure of shopping by mail as well as in person and knowing in each case goods must be right or money will be refunded.

KNOWING that no matter how low the pendulum of prices swings, quality is always considered of major importance.

FURTHER POINTS OF EATON SERVICE

THE assurance that EATON goods are always new goods—goods hurried to the EATON stores and mail order houses from the market places of the world.

KNOWING EATON prices are cash prices—and being cash prices are figured to the advantage of the shopper because cash business cuts the cost of merchandising to essential costs only.

THE pleasure of shopping by mail as well as in person and knowing in each case goods must be right or money will be refunded.

KNOWING that no matter how low the pendulum of prices swings, quality is always considered of major importance.

Introductory

The present volume constitutes the 1930 edition of Henderson's Directory of Regina. The work is a record of the civic, commercial, social, and industrial interests and activities of the municipality. It is a modern Directory in all its parts and includes all the essential features which have proven so satisfactory to our patrons in previous issues; these have been retained and amplified, and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory, thus fully meeting the requirements of patrons. The approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

THE DEPARTMENT OF MISCELLANEOUS INFORMATION

This is included in pages 101 to 164 and contains data concerning City, Provincial, and Federal Government offices, commercial organizations, cemeteries, churches (denominational and miscellaneous), colleges and schools, hospitals, homes and asylums, associations, institutes, clubs and societies, libraries, military organizations, public schools, fraternal societies, etc.

THE STREET AND AVENUE GUIDE

This is embraced in pages 165 to 269. In this feature the names of all streets and avenues are arranged alphabetically, giving the location, number on the street and showing the occupant. The intersecting streets are shown in the order that they come.

THE BUYERS' GUIDE

This occupies pages 1 to 100, and is printed on colored paper. There are advertisements of the leading manufacturing, business and professional interests. A casual perusal of these advertisements will picture many interesting phases of the city's activities. They are not display advertisements, primarily, but rather are reference advertising at its best. The need for this kind of information readily at hand is very great, and the general appreciation of this need is evidenced by the liberal patronage the city Directory enjoys in many and varied lines of trade.

THE ALPHABETICAL DIRECTORY

This is a list of names of citizens, business firms and corporations and covers pages 271 to 701.

THE CLASSIFIED BUSINESS DIRECTORY

This occupies pages 703 to 878, and exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed.

ADVERTISING REGINA

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, where they are readily available for reference use by the public. There they serve as perpetual advertisements of Regina, for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

POPULATION

The Directory estimate of population is based on the actual number of names contained in the book, which is multiplied by a common multiple to allow for the married women and small children whose names do not appear.

Based upon the names contained in the pages of this book, it is estimated that the population of Regina is 66,411. This includes considerable territory beyond the city limits, which is canvassed in order that the names of all people doing business in Regina, may be obtained for the Directory.

Respectfully,

The Publishers,
HENDERSON DIRECTORIES LIMITED.

City of Regina

REGINA, the Capital and Seat of Government of the Province of Saskatchewan, is situated 357 miles west of Winnipeg on the C. P. R. Main lines. When incorporated as a city in 1903, Regina had a population of 3,000. Since then it has grown solidly and steadily, until today it is the fourteenth City of the Dominion.

REGINA is Latin for "Queen," and commemorates Queen Victoria. The name was suggested in 1882 by Princess Louise, Duchess of Argyle, the Queen's daughter and wife of the Governor General.

HISTORICAL

The first settlers of the district arrived in May, 1882, and subsequently a canvas town sprang up where the trestle bridge carries the main track of the C.P.R. across Wascana Creek, about a mile west of the centre of the City.

The selection of the townsite of Regina was arranged jointly by the Government and the C.P.R. Company. Early in 1883 an officer of the North-West Mounted Police was sent to select a suitable place for the headquarters of the force, which had previously been at Winnipeg. On his return the lands at present occupied by the barracks were selected.

At this time an agreement had been completed between the Dominion Government and the Railway Company to enter into partnership regarding certain townsites, one of which was to be the seat of Government for the North-West Territories. Acting under this agreement the General Manager of the Railway Company, then W. C. Van Horne, and Mr. Dewdney, the Governor of the Territories, selected four sections, viz: 19 and 30, township 17, range 19, and 24 and 25, township 17, range 20, west of the second meridian, to constitute the Townsite of Regina. These selections were subsequently vested in Messrs. Osler, Scarth, Smith and Angus, trustees to administer and divide the net proceeds between the Federal Government and the Railway Company.

The arrangement for the control of the townsite by the Townsite Trustees was terminated by Order in Council of 29th December, 1900, and by further Order in Council of 6th April, 1903, the granting to the Municipality of the lots in the Townsite which had reverted to the Crown was authorized.

Up to March 7th, 1883, when, the Roundhouse was burned Regina had been a Divisional Point on the C.P.R., but after that date the headquarters of the Division was removed to Moose Jaw.

By Order in Council, 27th March, 1883, the Town of Regina was declared to be the seat of Government of the North-West Territories, in place of Battleford.

In the Spring of 1883, the first school was opened in the town. The original Dominion Lands Office, a low frame building was brought up on a flat car from Troy (afterwards called Qu'Appelle) and placed at the corner of Broad Street and Victoria Avenue.

3. Post Office

A public meeting was held in April, 1883, to discuss the matter of the site of the proposed post office, the site finally selected being on Victoria Avenue.

On May 13th, 1883, Lieutenant Governor and Mrs. Dewdney arrived to take up residence in Regina. They were met on arrival by a large number of citizens, and His Honor was presented with an address.

Regina was made a Money Order Point on July 1st, 1883. A public meeting was held and a citizens' committee formed to carry on the business of the town. Mr. John Secord, Barrister, was appointed secretary, and Sub-Committees were appointed on Finance, Sanitation, Fire and Water and Miscellaneous Affairs. A committee was also appointed to draft a charter of incorporation, and the Finance Committee were instructed to collect \$2,000 by public subscription for public works.

Elections for the North-West Council were held in August, 1883, Mr. William White was selected for the Regina district. The Fifth Council of the North-West Territories was opened by Lieutenant Governor Dewdney on August 22, 1883. A bill entitled, "An Ordinance Respecting Municipalities," was introduced in the North-West Council on September 12, 1883, and a public meeting of citizens was called to discuss the matter of incorporation.

Parliament Buildings

In October, 1883, a lot on Eleventh Avenue, near Rose Street, was sold for \$275. At this time farm lands in the vicinity of the City were worth about \$5 per acre.

On Monday, October 8th, the Civic Council met and took final steps to comply with the Ordinance to provide Municipal Government. The Government Buildings, Council Chambers and Indian Office on Dewdney Street were completed in October. The first telephone privately owned were introduced into the town at this time.

Up to December, 1883, Regina had two chartered banks, the Bank of Montreal and the Merchants Bank. It was found, however, that there was not enough business for two banks, and the Merchants bank was therefore withdrawn.

Nominations for the first Municipal Elections took place on January 3, 1884. Two hundred and thirteen votes were polled, and the following were elected: J. W. Smith, J. A. Kerr, J. D. Sibbald, James Hambley, Daniel Mowat, W. H. Gibbs and Mr. D. L. Scott, who later became Judge of the Supreme Court of Alberta, was the first mayor.

Regina was incorporated as a City on June 19, 1903, under Chapter 28 of the Ordinance of the North-West Territories, 1903-04, and became the Capital and Seat of Government of the Province of Saskatchewan.

The Parliament Buildings, the erection of which was commenced in the fall of 1908, stands on its own grounds of about 160 acres south of Wascana Lake and within the City Limits. It has well been said that there are no Parliament Buildings more dignified or better adapted to the needs of legislative work than those of the Saskatchewan Capital.

CITY GOVERNMENT

The government of the City is vested in a Council. It is what is regarded as a modified form of Commission Government with the Council as the Legislative body, and the City Commissioners the Executive. The powers of both are contained in "The City Act." The Council consists of the Mayor and ten Aldermen. Both are elected by a vote of the City at large. The mayor is elected annually,

while the Aldermen hold office for two years. The members of the Collegiate Institute, Public and Separate School Boards are elected at the same time and in same manner as Aldermen.

FINANCIAL CENTRE

Regina is unquestionably the financial centre of the Province, and its development in this respect is most remarkable. No less than seven of the leading Chartered Banks have branches in the City, and with one exception have erected substantial buildings of their own.

The Bank Clearing House Association was established and commenced business on October 1st, 1909.

The 1929 Clearings are in excess of \$25,298,328 more than those of the previous year.

Almost every loaning institution of importance in Canada has an office in the city, many of them occupying their own buildings.

A very large volume of business is transacted in the purchase and sale of bonds and debentures of the municipalities and school districts of Manitoba, Saskatchewan and Alberta, the City being the headquarters of Western Canada for this class of business. As an indication of this it may be said that the authorization granted by the Local Government Board for the issue of Municipal, School and Rural Telephone Debentures in Saskatchewan alone for 1929 amounted to \$6,337,603.80.

A RAILWAY CENTRE

Regina is justly entitled to be termed a great centre for railways. Twelve lines radiate in all directions from the City, and the Canadian Pacific and Canadian National Railways vie with each other in their endeavor to give Regina an excellent train service. In short, Regina serves 2,255 miles of Railway on which are located some 250 towns and villages.

GREAT DISTRIBUTING POINT

Served by the Transcontinental Railway systems and numerous branch lines, Regina offers unrivalled facilities for the distribution of merchandise in the middle West. As a distributor of farm implements, it has been spoken of as the greatest in the world, business in this line having reached \$35,000,000 in one year. Every Canadian and American Implement manufacturing firm of any importance has an agency in the City. This is due to Regina's geographical situation in the heart of the grain growing district of Western Canada, and its unequalled railway facilities.

MUNICIPALLY OWNED INDUSTRIAL SITE

The City of Regina occupies a premier position as regards Canadian cities, and in fact a first position among American Cities, in that it owns a large portion of its original townsite. Three hundred acres of this original townsite, three blocks from the centre of the downtown business and financial centre are reserved and developed for wholesale and manufacturing purposes. Provision is made for spur track accommodation to each site. Sewer, water, power, street rail-

way, pavements and walks are available throughout the area, and the freight depots of the railway companies are convenient to it. Over half in value of the area, representing seven miles of spur track frontage, has been sold and is in use for manufacturing and warehouse purposes. The City has still about six miles of spur track frontage for sale to bona fide businesses at satisfactory prices. Some seventy new businesses have located here since 1914, and Regina has a number of manufacturing concerns, upwards of 150 wholesale and over 400 retail houses located in the city.

MUNICIPAL OWNERSHIP

The City is a firm believer in municipal ownership and owns its Street Railway of which it has some 30 miles constructed within the City Limits; Light and Power Plant supplying cheap light and power and Water System. The number of passengers carried on the street railway during 1929 was 7,507,577 and its earnings \$431,407.79. The earnings of the power plant were \$961,689.32, and that of the water-works for 1929, \$350,336.22.

CENTRE OF GRAIN GROWING PROVINCE

Surrounding Regina is the finest grain growing district in the world. Saskatchewan is pre-eminently an agricultural province. It is the greatest grain growing province of Canada. Testifying to the quality of the Wheat grown in the province it may be stated that Saskatchewan has won the World's Prize for the best wheat grown eleven times in the last sixteen years.

SASKATCHEWAN WHEAT POOL

On June 26th, 1924, the Saskatchewan Co-Operative Wheat Producers Limited, better known as the Saskatchewan Wheat Pool, officially came into existence as the non-profit co-operative wheat marketing organization of the farmers of Saskatchewan. Since that time the organization has made tremendous strides, and the status of the Saskatchewan farmer has undergone improvement as a result. The old term contract expired on July 31st, 1928. Renewal contracts

were sent out to Growers in February, 1927, and were signed up so rapidly that the official announcement was made in June of that year to the effect that the required fifty per cent. of the total acreage of the Province had already been renewed, so that the operation of the Pool for its second five year term commencing August 1st, 1928, was assured fully fourteen months before the expiration of the old contract. The latest figure published on the number of contracts in force is 82,597 covering a net operative acreage of approximately 9,500,000 as at February 28th, 1930. In addition the Coarse Grains Pool holds 42,766 contracts with an acreage of approximately 2,763,000. It is interesting to note that since August 29th, 1923, not a single working day has passed without some contracts being received at the Pool Office in Regina.

A subsidiary of the Pool was incorporated as Saskatchewan Pool Elevators, Limited, in February, 1925. Up to August 1st, 1926, the Saskatchewan Wheat Pool had acquired a system of 89 country elevators in the Province, but at that date it took over the total elevator facilities of the Saskatchewan Co-operative Elevator Company, including 451 country elevators and four terminals. Further additions made to the Pool country elevator system brought the total to 727 country elevators for the handling of the 1927-28 crop, and 967 for the 1928-29 crop. The policy of providing Pool elevator service for as many of its members as practical is being continued, and the number of Pool elevators was increased to 1,048 with a country storage capacity of 34,836,000 bushels as at February 28th, 1930.

Pool Wheat for Saskatchewan, along with similar wheat from the Provinces of Manitoba and Alberta, is sold through what is known as the Canadian Co-operative Wheat Producers Limited, with headquarters in Winnipeg. This organization is controlled by a board of nine directors, three of whom are from each of the Provincial Wheat Pools, none of which sell any wheat themselves but dispose of it through the Central Selling Agency. The latter organization has representatives in the most important European countries. Exports were made to 90 ports in 19 different countries in marketing the 1928-29 crop.

The Canadian Wheat Pool operates branch offices at Montreal, Toronto, Calgary, Vancouver, Port Arthur Fort William and at London, New York, Paris and Buenos Aires.

The Canadian Wheat Pool also has a fully equipped Cereal Research Laboratory at Head Office, Winnipeg.

LIVE STOCK

Representative Live Stock Exhibits from Saskatchewan made a splendid showing at Eastern and International Exhibitions in 1929. At the Royal Winter Fair, Toronto more prizes were won than on any previous occasion, a total of 146 awards being secured. These included seventeen Championships, Reserve Championships and Trophies, thirty-three first prizes and ninety-six other prizes. "The Watson Challenge Shield" valued at \$2,500.00 and awarded to the Champion Canadian Bred Clydesdale Stallion was secured by a Saskatchewan Horse.

A very small exhibit was sent to the Chicago International Live Stock Exposition and was shown with particular success. Thirteen horses securing 24 awards, including 5 Championships and specials, eight first prizes and twelve other prizes. In all Saskatchewan exhibits won 217 prizes on their Eastern tour which included Fairs mentioned. These results are very satisfactory and emphasize the high quality of our live stock. Saskatchewan maintains with ease its position as the leading horse breeding Province in the Dominion. There is a marked trend towards the improvement of our cattle, sheep and swine and altogether diversified farming is the most prosperous phase of the Agricultural industry.

RESIDENTIAL CENTRE

In this respect Regina has been referred to as "The City of Beautiful Homes." Indeed, as a residential centre it offers every inducement to the homeseeker.

EDUCATIONAL CENTRE OF PROVINCE

From the educational and social points of view, the City also offers every advantage. The City has the Regina (United) College, St. Chad's (Anglican) College, Campion (Roman Catholic) College, and the Provincial Government Normal School, as well as a Lutheran College.

Besides this group of Educational Buildings there is a Central Collegiate Institute, a large building of classic design, and the Scott Collegiate, which was erected, equipped and opened on the North Side, at a cost of \$150,000 in 1923.

In addition there are some 20 Public and Separate Schools, 29 Churches, Y.M.C.A. and Y.W.C.A., two Public Hospitals and several Private Nursing Homes; a Public Library with three branches; several Business Colleges and numerous Societies for the advancement of Art, Music, Literature and Science; one daily Morning Paper, two daily Evening papers, two weekly papers and several monthly trade publications.

As to amusements, the City has five Moving Picture Theatres. The lake adjoining the Parliament Buildings offers facilities for boating, bathing and skating. Many Fraternal Societies and other Organizations exist here devoted to amateur Theatricals, debates, etc. The City is within easy distance of Last Mountain and Katepwa Lakes, two of the beauty spots of the province and delightful holiday resorts which afford excellent facilities for bathing, fishing and boating.

SOME STATISTICS

Regina is the best paved city in Canada for its size, having some 45.21 miles of paved streets, 86.5 miles of graded streets, 67.32 miles of granolithic and 93.81 miles of plank sidewalks. The City also has some 97.29 miles of sewer with 10,452 connections; some 93 miles of water mains with 632 hydrants and 8,218 house connections; five fire stations with some 73 firemen and a full equipment of the most modern fire fighting apparatus; some 520 acres of parks, a trunk sewer and sewage disposal works and an incinerator plant for disposal of garbage.

CITY HALL

Regina's City Hall is situated at the corner of Eleventh Avenue and Hamilton Street. The funds for its erection were to a great extent provided by the sale of the townsite lands.

HEADQUARTERS OF MILITARY DISTRICT

Regina is also the headquarters of Military District No. 12, which comprises the Province of Saskatchewan. This adds much to the business and social life of the City.

MEETINGS OF COUNCIL

The first meeting of the Council in each year is held on the first Monday in January, except when that day is a public holiday, in which case the meeting takes place on the next subsequent day which is not a public holiday; and the Council of the previous year holds office until the new Council meets.

The subsequent regular meetings of Council are held on the first and third Tuesday in each month throughout the year at 7.30 p.m.

Special meetings of the Council may be called by the Mayor whenever he deems it expedient, and he may do so when requested in writing by a majority of the Council.

A majority of the whole Council constitute a quorum.

ORDERS OF THE DAY

The "General Orders of the Day" at each meeting are as follows:

- (1) Confirming Minutes of last Meeting.
- (2) Original Communications and Petitions.
- (3) Presentation and Consideration of Committee Reports.
- (4) Presentation and Consideration of City Commissioners Reports.
- (5) Enquiries and Answers thereto.
- (6) Motions.
- (7) Giving Notice.
- (8) Introduction and consideration of Bills and Bylaws.
- (9) Unfinished Business.

COMMITTEES OF COUNCIL

At the beginning of 1916 the Council abolished the various Standing Committees, and substituted therefore a special Committee consisting of all the members of Council with the Deputy Mayor as Chairman. This Special Committee meets every Thursday evening at 7.30 o'clock and undertakes the duties and performs the functions of all the former Standing Committees.

Sub-Committees are appointed from this large Committee from time to time for the purpose of considering and reporting upon particular subjects and on any matters which may be referred to them.

STREET RAILWAY

The construction of the street railway as a municipal enterprise was projected in 1910. Actual construction began in the early part of 1911, and operation of cars on same was commenced July 29, 1911. At this time the system consisted of about six miles of track and six cars. Now there are 30 miles of track within the city limits, 14¾ miles of this being in pavement. The rolling stock is as follows: 48 Passengers Cars; 2 Sweepers; 30 Freight Cars; 1 Snow Plow; 1 Motor Haulage Car.

The total expenditure up to December 31, 1929, was \$2,054,717.50 of which \$504,065.00 was for cars and car equipment.

The operation statistics for the years 1928 and 1929 are as follows:

	1928	1929
Revenue passengers Carried.....	5,563,607	6,511,428
Transfer passengers Carried.....	818,813	996,149
Total Passengers	6,382,420	7,507,577
Passenger Car Miles	1,089,453	1,186,161
Other Car Miles.....	10,372	12,605
Total Car Miles	1,099,825	1,198,166
Passenger Revenue	\$345,672.90	\$407,593.28
Other Revenue	20,727.35	23,814.51
Total Revenue	366,400.25	431,407.79
Operation Expense	234,944.01	262,261.43
Operation Surplus	131,456.24	169,146.36
Fixed Charges	101,162.86	118,520.93
Depreciation	20,000.00	23,000.00
Surplus	10,293.38	27,625.35

The following fares were effected during the year:

Cash—10c.

Tickets—4 for 25c.

Tickets—8 for 25c. (Children over 5 and under 14 years)

Tickets—17 for \$1.00 (book)

All cars in regular service are operated by one man. This Method of operation has proved practicable and made a big saving in operating expense.

About two-thirds of the revenue, other than passenger, is derived from freight haulage. The Department delivers all coal to the city and Provincial Government power houses, and handles garbage from a central transfer station to the civic incinerator.

GENERATING PLANT

A modern generating plant, located on the shores of Wascana Lake, corner Winnipeg and Douglas Avenue, generates all power for the city. It has installed one 15,000 kw. C. A. Parsons, two 5,000 kw. Curtis, one 3,000 and two 1,500 kw. Willans (Seimens) turbines, six 500 h.p. Babcock and Wilcox water tube boilers, fitted with Riley Underfeed Stokers and two 900 h.p. B and W Boilers with water cooled walls and pulverized fuel furnaces with pulverizing equipment to supply on the unit system. The plant has all modern labor saving devices and shows excellent economy in generating.

SUBSTATION

No. 1 Plant is now employed as a substation and water pump plant, and for the supply of street railway power has installed one 1,200 k.v.a. Bruce Peebles motor converter and two 400 k.w. Seimens generators, driven by one 1,200 h.p. Synchronous motor. It has also two motor driven water pumps, five million and seven million gallons capacity respectively.

REFUSE DISPOSAL SYSTEM

Regina has now in operation one of the most modern refuse disposal plants on the continent. All refuse collected from the city is hauled to a central transfer station, where it is loaded into steel

dump cars. From the transfer station, which was specially constructed for this purpose at a cost of \$20,000, the refuse is transferred over the street railway to the incinerating plant at the disposal works, a distance of two and a half miles. The incinerating plant, recently constructed at a cost of \$64,000, has a capacity of 110 tons per 24 hours and is modern in every particular. It is proposed to utilize the steam generated at the plant to drive the pumps at the disposal works and to light the grounds.

STREET LIGHTING

Nine hundred street lamps light, 100.4 miles of streets and one mile of lanes.

For distribution of light and power to 13,791 consumers approximately 103 miles of pole line is required.

WATER WORKS SYSTEM

The principal sources of supply are the Springs, artesian and pumped wells in the valley of Boggy Creek about 8 miles northeast of the City. A dam constructed across the Creek impounds about 100,000,000 gallons of water, forming an artificial lake which is now part of the Park System rather than part of the water supply system. Approximately 160 drillings have been made in connection with the construction and renewal of wells. In 1929 there were 68 flowing wells and 5 wells arranged, or being arranged for pumping to accelerate and increase the yield. All the wells yield a pure, sparkling water somewhat hard, but of excellent potability.

The well water is collected in the Barton Pump well (270,000 gallons capacity) and raised to the Tor Hill Reservoir by means of two 2,000,000 gallons per day Centrifugal Pumps, one directly connected to a 75 h.p. Electric Motor and the other to a 100 h.p. Electric Motor, or either pump can be driven by Oil Engines. Two of the pumped wells are being connected to Tor Hill Reservoir by direct pipe lines.

Tor Hill Reservoir is a circular reinforced concrete structure, has a capacity of 5,000,000 gallons and stands about 125 feet above the City level; it is 202 feet in diameter and the maximum depth of water is 25 feet. It is connected to the City Reservoir and Pumping Station by an 18 inch pipe line.

The spring water and the water from a 10-inch pumped well is conveyed by a 15-inch vitrified pipe to the compensating basin, and thence by 10 inch Cast Iron Main to the City Reservoir and Pumping Station.

The Compensating Basins have a capacity of 1,065,000 gallons.

The second source of supply is located at Mallory Springs, four miles east of Winnipeg Street and half a mile north of Dewdney Avenue. This source was connected to the City in 1928 by an 18 inch pipe line. As originally developed the source consisted of flowing wells yielding a little over 500,000 gallons daily. In 1929, there were constructed two concrete wells of 18 inch inside diameter. These wells are each equipped with pumps capable of delivering 1½ M.G.D. One unit is a standby in case of failure of the other.

The City Reservoir is located near the City Pumping Station. It is of reinforced concrete 250 feet long by 153 feet wide, 21 feet deep, capacity 5 million gallons.

At the City Pumping Station the equipment consists of two 2½ million gallon per day and two 3½ million gallon centrifugal pumps, both sets having parallel and series connections which enable them to deliver their capacity at 60 pounds pressure or half capacity at 120 pounds pressure. Prior to 1924, both sets were steam driven. For greater economy in operation, electric motors have been purchased and installed on both sets. To provide a standby in case of electric failure a new pumping unit has been added.

The City water normally requires no purification, but the plant is equipped with a Wallace & Tiernan chlorinator. This can be used whenever the weekly examination by the Pathologist at General Hospital indicates the need.

CEMETERIES

Regina City Cemetery, n.s. 4th Ave near Hamilton.

PARKS

The present area of land set aside for public park purposes is 257 acres. Wascana Park is the largest, being about 45 acres in extent. The value of this land with improvements is estimated at \$3,300,000.

Alexandra Park—Generally known as Broad Street Park, is used as a children's playground, and is equipped with suitable apparatus. It is proposed to lay out several other playgrounds in different parts of the City in a similar manner, with a view to conforming as far as possible with the school curriculum of playground teaching.

Broad Street Park—Situated on the north side of Victoria Ave. between Osler and Broad Streets.

Stanley Park—Situated on the north side of South Railway St., facing the Union Depot, is laid out with walks, flower beds, trees, shrubs and lawns, and forms an appropriate setting for the station of the Canadian Pacific and Canadian National Railways.

Victoria Park—Situated on Lorne Street between Twelfth Ave. and Victoria Avenue, one block from the Post Office, in the heart of the City, has an area of over 7 acres. This park is laid out in an ornamental scheme, with a fountain in the centre, while trees, shrubbery and flowers are used to a good advantage in beautifying it.

Wascana Park—Situated to the south of the City, has a frontage of a quarter of a mile along the Wascana Lake. This lake extends for nearly two miles east, and affords excellent facilities for boating, bathing and skating, of which full advantage is taken. A large boat Club building and boat livery are situated on the shores of the lake. A civic bathing house is maintained for the free use of the public. Some 35,000 men, women and children use the pool from June 1st to September 15th. A band stand occupies an appropriate position in the park and frequent band concerts are given. This park, adjoining as it does, the grounds of the Regina College, and being in full view of the lake and Parliament Buildings, offers ample opportunity for development.

No. 2—Park de Young, between 9th and 10th Avenues, Retallack Street and Robinson Street, is used for baseball.

No. 3—Block 255, between 9th and 10th Avenues, Robinson Street and Cameron Street, is used for football.

No. 4—Block 330, and a portion of 329, between Victoria Avenue West and South Railway Street, Argyle Street and Princess Street. These grounds are available for baseball, football and tennis courts.

No. 5—Maple Leaf Park, south-east.

No. 6—Blocks 70 and 71, north-east.

New Parks—Considerable attention is being given to the location of several new Parks in the City; these will be located in the North, East, South and West Sections of the City, to serve the needs of each community.

Municipal Golf Course—An Eighteen Hole Golf Course is being laid out on the City property at Boggy Creek, plans having been completed and received from Mr. Stanley Thompson, Golf Course Architect, of Toronto. The Department expects to have the Course ready for play by July 1st, 1931.

EMMANUEL COLLEGE

In Affiliation with the University of Saskatchewan

The College is governed by two bodies, a Statutory Council, composed of ex-officio and elected members. Its appointment is regulated by canon and the elected members retire by rotation. Also by a Board of Governors appointed by the Colonial and Continental Church Society of London, England. The Council grants standing in Theology, and the Board controls all matters affecting the welfare of the College, and the Proceedings of the College are reported annually to the synod of the Diocese of Saskatchewan. The Educational Committee is made up of the Faculty, together with the Bishop, and three clerical and three lay members of the Board of Governors.

The College provides: (1) an associate course in Theology, (2) a pass course leading to the Testamur, (3) a course leading to the Licentiate of Theology, and (4) a course leading to the Degree of Bachelor of Divinity.

This Publication is the Product of a Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.
